

# 5G TRI-SECTOR SHROUD

The 5G Shroud and pole top mount concealment solution is compatible with the radios and antennas of all major equipment manufacturers. The 5G shroud complies with GR-487 and small cell aesthetic standards.

The 5G Shroud accommodates a tri-sector array with adjustable brackets or provides the option to vertically stack multiple 5G units. Easily mounts to new or existing streetlight poles, wood poles and traffic signal poles.

- 360 Tri-sector Array Adjustment
- Vibration Isolation Dampener
- Optional Mounting of 4G Canister
- RF Transparent Concealment Film
- Galvanized Internal Mounts
- Custom Shroud Color and Finish
